

Activity Log Help

The Activity log helps you track your activities. As a Non-Muslim-Buddy you cannot initiate activities, but you can respond to activity requests. Activities, include but are not limited to coffee or lunch meetings, social gatherings, visiting a Mentor-Buddy's home, etc., initiated by your Mentor-Buddy.

The upper part displays pending activities (if any) between the Mentor-Buddy and Non-Muslim-Buddy/protégé. The lower part shows old activities. You can filter the old activities by time like last quarter, last month, last week and today. You can also view the details of each activity or delete each item.

The main content area is titled "Activity Log" and is divided into two sections:
